

30cm Network Cabinet Dimensions Diagram

Article Overview

A 30cm network cabinet typically refers to a cabinet with a 30cm (approximately 12 inches) depth, standard 19-inch internal width, and variable height measured in rack units (U), suitable for compact networking setups.

Standard Dimensions

- Depth: 30cm (approx. 12 inches), ideal for wall-mounted or small office installations .
- Width: Standard internal width is 19 inches (482.6mm) to comply with EIA-310 equipment standards; outer width may be slightly larger to accommodate cable management .
- Height: Measured in rack units (U), where $1U = 1.75$ inches (44.45mm). Common small cabinet heights range from 6U to 15U, depending on equipment needs .

Layout and Features

- Enclosed Cabinets: Provide doors, side panels, and locks for security, dust protection, and noise reduction .
- Open-Frame Racks: Simple metal frames without panels, offering maximum airflow and easy access, suitable for labs or testing environments .
- Cable Management: Vertical and horizontal cable trays can be integrated; tie-wraps or Velcro straps are commonly used to organize cables .
