

4-Port Switch with Optical Module

Overview

A 4-port Gigabit switch with a built-in SFP fiber port — the easiest way to add fiber-optic Ethernet isolation to your audio system. Includes a systemOptique-certified SFP module and 1m fiber cable. Our ESW-2206 optical fiber switch has 2 Fiber Optic SFP Module ports and 4 X 10/100/1000 Base-TX copper RJ-45. Works Best with Fibertronics Cat6 6 or Cat 5e ethernet patch cables. Plug and Play: Rugged metal housing, noiseless, with hanging ears for installation, plug in the power cable and network, no configuration required, can be easily installed in various environments. No-blocking. □Up to 120km□: Fiber transceiver provides multiple Gigabit SFP optical ports and 10/100/1000M adaptive RJ45 network ports, users can choose different SFP optical modules according to the needs of the site, hot swap FX ports to extend the fiber distance up to 120km. Connect directly to Sonore systemOptique products —. Lightem 1000Mbps 4 port Gigabit Ethernet Switches supports two types media for network connection, feature 2x 10/100/1000Base-T and 2x 1000Base-SFP module. The switch is designed with a switch controller and buffer memory that connects two types segments for operation.
