

432-core optical cable

Overview

With 432 individual optical fibers bundled into a single cable, it delivers exceptional scalability and future-proofing for high-bandwidth applications. These cables are essential in backbone infrastructure where space efficiency and transmission capacity are critical. A1, Feet jacket marking, Black jacket color. Providing high-fiber-counts in a rugged, compact design, the enhanced coupling features ensure the ribbon stack and cable act. Corning ALTOS® all-dielectric gel-free cables are designed for outdoor and limited indoor use for backbones in lashed aerial and duct installations. The loose tube gel-free design is fully waterblocked using craft-friendly, water-swallowable materials, which means cable access is simple and no clean. Fiber OSP cable, Steel Armored, Gel-Filled Loose Tube Ribbon, 432 fiber, Singlemode G. Tensile Strength During Operation LiteLinux 432-Fiber Ribbon Cable offers ultra-high density fiber counts in an easy-to-handle ribbon format, optimized for fast mass fusion splicing.
