

576 No-jump fiber optic junction box

Overview

Modular design; Flexible configuration and quick installation; Suitable for ribbon and no ribbon optic fibers; 30 °oblique installation of adapters, preventing eyes from laser's hurts and ensuring the fiber bending radius; Suitable for inserting installation of SC, FC, ST. Modular design; Flexible configuration and quick installation; Suitable for ribbon and no ribbon optic fibers; 30 °oblique installation of adapters, preventing eyes from laser's hurts and ensuring the fiber bending radius; Suitable for inserting installation of SC, FC, ST. The box is made of SMC through high-pressure compression molding, with a long service life, anti-aging, radiation resistance, and no need for any protection on the surface. It has all-weather protection function. connecting trunk and distributing optical fiber cable. Fiber optic cabinet, max up to 12/24/48 trays, 12 ports one tray, total 144/288/576 ports, FC or SC. SJ-OCC-SS-576 outdoor 576 fibers optical cross-connection, fiber cross-connect cabinets are designed to prevent the ingress of moisture into optical fiber. This cabinet offers ideal environment for fibers to be spliced and well organized under outdoor environment. *The box body and base are sealed with hoops and rubber.
