

Acrylic distribution boxes and PVC distribution boxes

Overview

PVC and acrylic boxes are modern packaging solutions made from strong, transparent plastic materials designed to protect and display products at the same time. PVC offers flexibility and durability, while acrylic adds a glossy, glass-like finish that looks premium and. Murrelektronik EXACT8 and EXACT12 Distribution Boxes are reliable, economical, and space-saving installation solutions that are available with various cables. EXACT8 distribution boxes are only 30mm wide and can be installed in many ways, including side mounting. Custom PVC and acrylic boxes make that first impression count. They are widely utilized in various fields, including solar energy photovoltaic systems, outdoor lighting installations. Among our distribution boxes you will find the smart and practical solution for your project or business. It ensures reliable power distribution by directing electricity to individual circuits and.
