

Active optical cable 100G warranty

Article Overview

100G Active Optical Cables typically come with either a lifetime warranty or a multi-year limited warranty, depending on the manufacturer.

Warranty Overview

- **FS.com 100G AOCs:** These cables are offered with a lifetime warranty, reflecting the manufacturer's commitment to long-term reliability and support. The warranty covers defects in materials and workmanship, and users are encouraged to contact FS.com for detailed terms and support .
- **Optcore 100G QSFP28 AOCs:** These cables come with a 5-year warranty along with a money-back guarantee, providing assurance for both performance and customer satisfaction .
- **Other Manufacturers:** While some vendors like AICPLIGHT and SwedishTelecom OPTO emphasize high reliability, compliance with QSFP28 MSA standards, and robust performance, explicit warranty durations may vary and should be confirmed with the supplier .

Key Considerations

- **Compatibility and Installation:** Installing third-party AOCs generally does not void network equipment warranties, but it is recommended to follow manufacturer guidelines for installation .
- **Coverage:** Warranties typically cover manufacturing defects and may include replacement or repair. They may not cover damage from misuse, improper installation, or environmental factors.
