

Adhesive sealing material for distribution boxes

Overview

Heavy-duty box sealing tape, also known as packing tape or adhesive tape, is designed to securely close regular slotted containers (RSC) and packages used for moving, shipping and distribution. They firmly adhere to paper-based material quickly and securely. Our carton sealing glue sticks offer a wide range of open time from fast to slow. They feature a woodworking, and fibrous materials in a fast-paced assembly line. Box sealing is a critical component of packaging, playing a vital role in protecting products during transit and storage. As industries shift towards efficient, eco-friendly, and application-specific packaging. Selecting the best glue for boxes depends on the box material, production speed, environmental requirements, and end-use conditions. You must seal packages and bulk cases to ensure your products are properly protected throughout storage, shipping, and distribution.
