

Aggregation Switch 1800

Overview

The Motorola AXS1800 Enterprise Aggregation Switch (EAS) is a next generation passive optical LAN (POL) solution that delivers rapid return on investment (ROI) and very low total cost of ownership (TCO). From the datacenter to the desktop, the Motorola AXS1800 EAS all-fiber solution increases the. 1. 8 Tbps high-density 100G/25G Layer 3 Etherlighting™ aggregation switch with MC-LAG support for high availability system design. An 8-port, Layer 2 switch made for 10G SFP+ connections. The HP ProCurve Switch 1800 Series consists of two Gigabit, fanless, Web-managed switches that are ideal for deployment in open offices that require silent operation. With 2 Tbps switching capacity and feature-rich IP capabilities and features, it is purpose-built for high-capacity aggregation and metro applications. Enhanced timing and flexE for network slicing make.
