

Andorra Fiberglass Fireproof Cable Tray Manufacturer

Article Overview

Andorra has multiple suppliers offering fiberglass fireproof cable trays suitable for industrial and commercial applications.

Overview

Fiberglass cable trays from Andorra are designed to provide fire resistance, durability, and corrosion protection. These trays are ideal for environments where safety and compliance with fire standards are critical. They are often used in electrical installations, industrial plants, and commercial buildings to safely route and protect cables.

Key Features

- **Fireproof and Flame Retardant:** Many trays are made from fire-resistant polyester fiberglass and coated with specialized fireproof powders to withstand high temperatures and prevent flame spread .
- **Durable Materials:** Fiberglass construction ensures resistance to corrosion, moisture, UV radiation, and chemicals, making them suitable for indoor and outdoor use .
- **Load Capacity and Sizes:** Standard trays are available in 3-meter lengths, with widths around 150mm and load ratings up to 10kg/m on a 1.65-meter span .
- **Compliance and Certification:** Trays meet international standards such as ISO 834-1, EN 1363-1, DIN 4102-12, and AS/NZS 3013:2005, ensuring safety and reliability in fire scenarios .
