

Central Asian Five Countries Network Security Equipment 200G

Article Overview

The FortiGate 200G series offers AI-powered, high-throughput network security suitable for Central Asian national networks, supporting 200G performance with advanced threat protection.

FortiGate 200G Overview

The FortiGate 200G series is a next-generation firewall (NGFW) designed for high-performance environments, delivering 200G throughput with ultra-fast threat detection and SSL inspection without compromising network speed . Key features include:

- **AI and Machine Learning Security:** Detects and mitigates threats in real time, providing deep visibility into applications, users, and devices .
- **Integrated Security Fabric:** Offers end-to-end protection including web, content, and device security, while enabling secure SD-WAN and network segmentation .
- **Zero-Trust Network Access (ZTNA):** Automatically verifies user access to applications, reducing lateral movement risks .
- **High Scalability:** Suitable for national or regional networks requiring high throughput and low latency.
