

Congo junction box anti-tracking

Overview

This is an insulating tape for next-generation EVs that is the first in the industry to have both high heat resistance (RTI 180°C) and tracking resistance (1000V). It can be used for insulating the chassis of EV parts such as transformers/reactors, inverters/junction boxes, etc. Posi Fit™ box for use in Group I mining (low impact areas), Group II and Group III applications. High-temperature resistance, corrosion-resistant and anti-static properties. Raised domed lid facilitates connections to be made clear of the box base. The CCG industrial cable glands range is extensive and covers just about every size and type of armoured and unarmoured cables. Fully seam-welded, this small metal junction box with both front and rear lid tamper switches is provided with optional tamper-proof screws to facilitate installation to EN50131. It can. CE-TEK have developed over the last 30 years a comprehensive range of rugged Electrical Junction Boxes specifically for use in most Hazardous Areas within such industries as Oil & Gas, Petro-Chemical, Pharma, waste water, food and beverage, milling etc, indeed any application or location where the.
