

Corrugated pipes for optical fibers

Overview

Corrugated, formerly named Endocor, is corrugated HDPE conduit is engineered to subdivide larger pathways, making it easier to install optical fiber cables while improving efficiency and performance during deployment. Corrugated was formerly produced by Endot. Neproplast Telecommunication Pipes are high-quality conduit solutions for modern fiber optic networks, designed to provide efficient cable management, protection, and long-term reliability. Available in multi-color options for easy identification, these pipes are ideal for both indoor and outdoor use. Made of high-density polyethylene in accordance with ASTM F-2160 standard for conduit ducts. ▲ Laying of COD through/under hurdles.
