

Custom Price of Explosion-proof Distribution Boxes in Inner Mongolia

Article Overview

Explosion-proof distribution boxes in Inner Mongolia typically range from approximately \$150 to \$1,200 USD per unit, depending on specifications, certifications, and customization.

Price Factors

The cost of explosion-proof distribution boxes varies based on several factors:

- **Certification and Standards:** Boxes certified under IECEx, ATEX, or NEMA standards for hazardous zones (Zone 1 or Zone 2) generally cost more due to rigorous safety testing and compliance requirements .
- **Material and Durability:** Stainless steel or corrosion-resistant enclosures designed for extreme temperatures or outdoor use are priced higher than standard metal or plastic models .
- **Size and Capacity:** Larger boxes with more circuits or higher amperage ratings increase the price. Small junction boxes may start around \$150–\$300, while industrial-grade units can exceed \$1,000 .
- **Customization:** Custom configurations, such as additional cable entries, internal mounting plates, or specialized coatings, add to the cost .
