

Denmark sells fiber optic cables at high prices

Overview

The average export price of optical fiber cables from Denmark surged by 39% in 2024 to \$40,995 per ton, reflecting a trend of resilient growth despite some fluctuations in previous years. Farnell's fibre optic cables are engineered to provide high-speed, high-bandwidth data transmission over long distances with minimal signal loss. With a focus on quality service and competitive pricing, they cater to various housing associations, ensuring robust connectivity and continuous network. In 2024, France emerged as the largest supplier of optical fiber cables to Denmark, accounting for 31% of total imports by value. Poland and Germany followed, each holding an 11% share. On the export side, Denmark's primary markets were Germany, the Netherlands, and Sweden, which together comprised. FiberMAN specializes in network solutions, including fiber optic cable installations and splicing, with a focus on delivering high-quality infrastructure for various sectors like telecom and data centers.
