

Dimensions of a waterproof electrical distribution box in Honduras

Overview

The dimensions are approximately 215mm (width) x 210mm (height) x 115mm (depth). It is made of sturdy ABS plastic, offering impact resistance up to IK08. The box has an IP65 protection grade, which prevents rainwater and dust from entering, ideal for both indoor and outdoor use. (1) Waterproof distribution box engineered for harsh outdoor and industrial environments, providing IP65–IP68 sealing against dust, rain, and UV. Available in 4-39 ways, single/double/triple layers, ideal for industrial, commercial, and photovoltaic applications. Meet IEC standards for reliable electrical protection. It serves key functions in power distribution, control, and protection against issues like overloads. The AT-9 waterproof distribution box provides 9 circuits in a single-row enclosure.
