

Distribution Box Unpacking List

Article Overview

A distribution box unpacking list includes all items inside the shipping container, along with step-by-step instructions to safely unpack and verify each component.

Typical Items in a Distribution Box

When unpacking a distribution box, you can generally expect the following items, though specifics may vary depending on the product:

- Main unit or enclosure (e.g., storage enclosure, router, or other equipment)
- Accessory kit containing bolts, screws, brackets, and other hardware
- Power cords and cables required for operation
- Documentation including manuals, installation guides, and warranty information
- Handles or mounting hardware for rack installation
- Optional smaller boxes containing components like disk drives or modules

Step-by-Step Unpacking Procedure

- Plan the site location: Ensure the installation area is ready and can accommodate the weight and dimensions of the equipment .
- Cut securing bands: Use wire cutters to remove plastic bands or straps holding the box to pallets .
- Open the shipping container: Remove tape and lift the top of the box carefully .
