

Distribution box model PZ30-15

Overview

Chint PZ30-15 distribution box is a low-voltage power distribution equipment suitable for residences and small commercial places. Core Parameters and Functions Circuit Design: Supports 15 circuits, adopts a single-row structure design, and can flexibly configure electrical components such as. PZ30-15 1mm CHINT - Distribution boxes Distribution boxes. Check out the in-stock pricing and datasheet for electronic components from LCSC Electronics. Constructed with a 1mm thick steel frame, this distribution box ensures robust protection. PZ30 lighting distribution box is suitable for frequency 50HZ, rated voltage 500V and below, load current is not greater than 100A single-phase and three-phase circuits, for power and lighting, motor control, overload, leakage and short circuit Road protection. The product is divided into open wall-mounted, concealed embedded, single-row, double-row and three-row, with specifications of 20-80 circuits.
