

Double-row cable tray connection plate

Overview

A cable tray joint plate is a flat metal piece used to join two cable trays. It comes with drilled holes for nuts and bolts. Is your cable tray system optimized for safety, dependability, space and cost savings?

Cable tray (or cable ladder) systems are a popular alternative to electrical conduit systems, as they have an outstanding record for dependable service, design flexibility and cost savings in commercial and. The versatile OBO cable tray systems stand for efficiency, stability and safety. The standardised fittings, which are compatible with all OBO cable, maintain spacing or to keep cables in place when the tray is ect the minimum bend ra-dius for cables as they exit the bottom of the cable tray. Accessories must be ordered individually to complete the system. Splice plates for system assembly come in six variations designed for specific applications: straight, expansion straight, fixed. RS offer a great range of high-quality cable tray accessories from industry-leading brands including Legrand, Cablofil International, Schneider Electric, Phoenix Contact and MECATRACTION.
