

Export Price of 6-core SC APC Fiber Optic Connector for Broadcast Transmission

Article Overview

The export price of a 6-core SC/APC fiber optic connector typically ranges from \$2 to \$10 per unit, depending on quantity, quality, and supplier.

Pricing Overview

- On platforms like Alibaba, 6-core SC/APC fiber optic connectors are offered at factory-direct prices, often starting around \$2-\$5 per piece for bulk orders, with prices increasing for smaller quantities or premium specifications .
- Suppliers such as Shenzhen PeakVic Technology provide high-quality SC/APC connectors with OEM/ODM options, which may cost \$5-\$10 per unit depending on customization, insertion loss requirements, and certification standards .
- Retail and smaller-scale distributors like Amazon or DigiKey may list similar connectors at slightly higher prices due to packaging, shipping, and retail margins, typically \$6-\$12 per unit .

Key Considerations for Export

- Shipping Methods: Connectors can be shipped by sea, air, or express courier (EMS, UPS, DHL, FedEx, TNT), which affects the final export cost .
- Quality Standards: Look for connectors with low insertion loss (≤ 0.3 dB), precise core alignment, and compliance with telecom or broadcast standards .
- Customization: OEM/ODM services allow for custom lengths, color coding, or packaging, which may increase unit cost but ensure compatibility with broadcast transmission systems .
