

Fiber Optic Cable Pulling Tool

Article Overview

Fiber optic cable pulling tools are specialized devices designed to safely and efficiently install fiber optic cables, available in electric, gas, or battery-powered models with adjustable tension and capstan sizes.

Types of Fiber Optic Cable Pullers

1. Electric and Battery-Powered Pullers

- GMP eCapstan: A quiet, battery-powered capstan suitable for indoor use with no emissions, featuring variable speed and push-button force selection for precise control .

- GMP SideWinder: Trailer-mounted, battery-powered puller with a 32" or 42" capstan, providing controlled force for underground cable installation. It includes a hand-held remote, adjustable tension, and easy access to components .

2. Gas-Powered Pullers

- TUF-Lugger Lite: Gas-powered winch option for fiber optic cable pulling, offering portability and simplicity. It supports standard sheaves of 9", 12", 30", or 40" diameter, accommodating minimum bend radius requirements .

3. Hydraulic Pullers

- Condux Fiber Optic Cable Puller: Hydraulic motor with variable speed foot control, manually adjustable pressure relief valve, and optional electronic tension control. It provides precise tension measurement using a load cell and is calibrated for maximum pull tension of 600 lbs on a 30" capstan .

- GMP Hydraulically Limited Cable Puller: Offers speed control and overload protection, suitable for heavy-duty underground installations .
