

Fiber optic communication cable price inquiry

Article Overview

Fiber optic cables typically cost between \$0.09 and \$6 per foot depending on type, fiber count, and installation requirements.

Fiber Optic Cable Pricing Overview

The cost of fiber optic cables varies widely based on fiber type, strand count, cable construction, and installation method. Retail prices generally range from \$1 to \$6 per foot, while wholesale bulk purchases can be as low as \$0.09 to \$1.52 per foot. Simple 1-core FTTH drop cables cost around \$0.13 per foot, whereas high-capacity 288-strand backbone cables can reach \$6 per foot or more. Pre-terminated assemblies and patch cables are more expensive due to factory termination and connector types .

Factors Affecting Cost

- **Fiber Type:** Single-mode fibers are cheaper per foot than multimode fibers but require more expensive equipment .
- **Cable Construction:** Outdoor or armored cables with enhanced protective coatings cost more than indoor cables .
- **Installation Complexity:** Underground or trenching installations increase costs compared to aerial or indoor runs. Labor, permits, and specialized equipment add to the total expense .
- **Volume and Bulk Purchases:** Larger orders reduce the per-meter cost due to economies of scale .
