

Fiber optic patch cord MTRJ interface

Overview

The MTRJ patch cable is a compact, high-density fiber optic connectivity solution designed for space-constrained networking environments. Featuring an MTRJ to MTRJ duplex interface, this patch cable enables reliable bidirectional optical transmission within a single connector. They comprise two tight buffer fibres housed within a common outer jacket in OM1, OM2, OM3, OM4, OS1, OS2 multi-mode and single mode variants. FC, LC, MTRJ, E2000 connector in simplex and. LongXing supplies top quality optical fiber patch cord with very competitive prices, every single piece of patch cord is tested in the workshop before delivering to the customer. Customer/special requirements are welcomed. The LongXing brand of fiber cable assemblies are designed and manufactured. Spring Optical Communication is one of the largest and best mtrj patch cable – mtrj to mtrj duplex fiber optic patch cord manufacturers and suppliers with rich experience. MTRJ stands for Mechanical Transfer Registered Jack. It's half the size of the SC connector.
