

Fireproof cable tray conduit

Overview

This fire-resistant cable tray is engineered to prevent the spread of fire and maintain the integrity of essential electrical systems, making it an ideal choice for a wide range of applications including commercial buildings, industrial plants, tunnels, hospitals, airports, and. This fire-resistant cable tray is engineered to prevent the spread of fire and maintain the integrity of essential electrical systems, making it an ideal choice for a wide range of applications including commercial buildings, industrial plants, tunnels, hospitals, airports, and. TIANLAI's Fireproof Vertical Shaft (Wire-Tied) Cable Tray provides an advanced solution designed to safeguard electrical cables while ensuring compliance with fire protection standards. Fire Rating: Up To EI120 (240 minutes integrity, 120 minutes insulation) Fire Attack: Both Sides Cable Load (max): 24kg/lm 40 Year. The design achieves efficient heat dissipation and lightweight, reducing the weight by 30%, which can significantly improve construction and maintenance efficiency. It can be buried in the wall or floor to achieve concealed wiring. The inner wall is smooth and has excellent insulation, making it. Effective protection of cable systems around the world: our tried-and-tested FLAMMOTECT-A and DG-CR 0. 7 products are successfully used to protect cables in high-rise buildings, industrial buildings, and offshore facilities as well as in sensitive areas, such as hospitals, airports, production. Fire resistant cable trays are cable trays with fire-resistant boards as the core protective layer. Cablofil cable tray is the preferred choice for the cable containment of low and high voltage electric cables where fire resistance is crucial - this includes cable basket tray systems for Prysmian. Cable trays are intended for the construction of fire-resistant cable paths. Do you need help with your purchase?

The HERMI team will be happy to advise you and help you find the most suitable solution for your situation. Cable trays are intended for the.
