

French Outdoor Cabinet Explosion-proof Type

Overview

These cabinets with explosion relief wall panels release when air pressures reach 20 psf inside the chamber to prevent a damaging explosion. They have air vents, spill containment sumps, generous room for drum storage and durable construction. We design and manufacture a wide range of explosion proof (flameproof / ATEX) products including enclosures, control cabinets, junction boxes, switches, sensors, control stations, motor starters, isolators and many other accessories. Designed and built in France for tough hazardous area operations across the world. Need help. The outdoor chemicals storage container in Alfa Chemistry includes shelf type explosion-proof container, walk-in explosion proof container and chemical waste temporary storage cabinet. Features of the series products Selected spill containment system which have superior liquid leakage prevention. EXPLORIS® FWF 90 safety cabinets for the storage of toxic or flammable gases are designed so as to protect the substances stored inside against fire from the outside.
