

Gigabit Single-Mode Dual-Core Fiber Optic Module

Overview

This Generic SFP-1G-EX compatible SFP module supports 1000BASE-EX Gigabit Ethernet connectivity and 1G fiber channel application. Featuring 1310nm wavelength, it supports a link distance of 40km over LC duplex single mode fiber (SMF). Optical and copper models can be used on a wide variety of Cisco. The industry-standard Cisco Small Form-Factor Pluggable (SFP) Gigabit Interface Converter (Figure 1) links your switches and routers to the network. The modules in the original package and the small white box with the same SN code are individually packaged with the original factory seal. Shipping fee and delivery date to be negotiated. SPEED REDEFINED: 10 Gigabit Performance for Modern Networks Subheading Focus: Bandwidth & Low Latency Speed defines. □Complete Fiber Media Converter Kit□Includes 2x Gigabit Ethernet Media Converters with SFP slots, 2x 1000BASE-LX BiDi SFP transceivers (LC single-mode, TX1310nm/RX1550nm), 2x 5V/1A power adapters (100-240V), and 1x user manual. Everything you need to create a reliable point-to-point fiber optic.
