

H3C Switch Optical Interface

Overview

The H3C LSCM2CGT24TSSC8 is a high-performance switching and routing engine module designed for the H3C S7003X switch series. It combines 24x Gigabit RJ-45 ports and 4x 10G SFP+ fiber ports, offering flexibility and high density for enterprise and data center networks. You can choose optical modules as needed for data transmission over optical fibers. The. Optical transceivers are widely applied in switches, routers, network cards and other communication equipment. We connect Moduletek QSFP-40G-LR4 transceiver to H3C S6820 switch, and. Based on the industry-leading 400 G platform, H3C S12500R supports a maximum 48-port 400 G forwarding performance in a single slot.
