

Handheld Relay Protection Tester Z300

Overview

The Z300 measures Voc, Isc, Riso and Rs up to 1500V; and syncs every result to the cloud automatically. Used by solar O&M teams and EPC contractors worldwide. Emazys PV test instruments and accessories - suitable for troubleshooting and diagnostic testing PV. HZJB-430 handheld relay protection tester is mainly used in power grid companies, power plants, electric construction companies, comprehensive security manufacturers, petrochemical companies, rail transit traction power supply system and other users of electrical secondary equipment operation and. KDJBS-30 is a lightweight handheld tester with 4-channel voltage & 3-channel current output. 1%), OLED display, rechargeable lithium battery (8h working time). Compact, low power, full test functions for on-site quick maintenance. Product Description: Portable Relay Protection. Today I will introduce a handheld relay protection tester to you---a handheld lithium battery-powered three-phase relay tester and on-site fault elimination instrument weighing only 2. Comprehensive and practical testing functions, supporting AC tests, group tests, status sequences, phase verification, polarity, virtual terminals, differential protection, distance.
