

Handheld power distribution box for construction site maintenance

Overview

A Portable Socket Box (or Portable Distribution Box) is a compact, self-contained unit that provides multiple power outlets from a single heavy-duty industrial inlet. It's designed to safely distribute power in locations where fixed wiring is unavailable or impractical. This amazing portable industrial socket box solves all your power usage pain points perfectly ☑! The whole unit is made of thickened anti-fall hard shell, with a bright red eye-catching logo that can be spotted from far away. It features a rugged metal enclosure made of cold-rolled steel or stainless steel with anti-corrosion spray coating, built to withstand the harsh conditions of. Portable Power Distribution by INDU-ELECTRIC is the ideal solution for safe, flexible, and high-performance power supply in changing environments.
