

High-density network cabinets in Honduras

Article Overview

High-density network cabinets for data centers and IT infrastructure are available in Honduras through local distributors and international suppliers, offering robust, secure, and scalable solutions.

Local Suppliers and Options

Yaxa Honduras offers the Tecmojo 42U server rack network cabinet, which supports up to 1800 lbs and a maximum mountable depth of 26.38 inches, suitable for heavy IT equipment like 19-inch servers, switches, routers, and PDUs. It includes power distribution units (PDU), cooling fans, shelves, rack rails, cable management panels, and casters for mobility. The cabinet features a fully lockable perforated front door for ventilation and security, and multiple cabinets can be connected for scalability. It is available nationwide with local support and fast shipping in Honduras. Network Place Honduras specializes in providing network infrastructure solutions, including high-density cabinets, fiber optic installations, structured cabling, and wireless access points. They offer certified products and installation services for small, medium, and large enterprises, ensuring compliance with industry standards and optimal network performance. Networks Honduras is another local distributor providing telecommunications and IT equipment, including network cabinets, with a physical location in San Pedro, Honduras, facilitating local purchase and support.
