

High-precision spectrometer quote

Article Overview

You can request quotes for high-precision spectrometers from leading vendors such as Thermo Scientific, Ocean Optics, Spectrecology, and Infitek, each offering specialized models for research and industrial applications.

Vendor Options and Models

Thermo Scientific Neoma MC-ICP-MS

- Designed for high-precision isotope ratio analysis with multicollector technology.
- Features include flexible detectors, sensitive ion source, excellent mass resolving power, and upgrade options to MS/MS for advanced interference removal.
- Ideal for nuclear, geochronology, and laser ablation applications.

• Quote requests can be submitted directly through Thermo Scientific's website .

Ocean Optics Spectrometers

- Offers compact UV-Vis, NIR, and Raman spectrometers suitable for lab, field, and industrial use.

• Known for precision, flexibility, and application-specific solutions in biomedical, environmental, and industrial monitoring.

• Contact via their website for pricing and custom configurations . Spectrecology High-Performance Spectrometers

- Includes QE-Pro, Ocean-HDX, MAYA2000Pro, and HR series.

• Features high sensitivity, wide spectral range (UV to NIR), fast data acquisition, and thermal stability.
