

Household distribution box 48

Overview

48 Port Fiber Distribution Box provides 16, 24, 32 or 48 SC ports in a traditional two-layer design – a rear splice area for cable slack and splice protection, and a front interconnect area for SC ports. The FDB-48 is suitable for indoor or outdoor FTTX applications that support up. Versatile surface-mounted distributor for wide range of applications The DISBOX-MA series from BOXEXPERT is available in a total of 8 sizes, from 8 to 54 modules. With its IP40 protection class, the distribution box is perfectly suitable for all indoor applications. Dual-use indoor/outdoor design with IP55 protection. The MDB-M48 allows the connection, through patch panels or directly by splices, between the optical fibres feeding the MDU, and the optical fibres from the cables coming from the building network.
