

How are the optical module manufacturers

Article Overview

Key manufacturers of optical modules include Innolight, Eoptolink, Accelink, Cisco Systems, and Coherent Corp., among others, each offering a range of high-speed optical communication solutions.

Major Optical Module Manufacturers

-

Innolight: A global leader in high-speed optical modules, particularly for data centers and cloud applications. They specialize in 100G, 200G, 400G, and 800G optical modules and have established strong partnerships with major internet cloud vendors like Meta and Google .

-

Eoptolink: This company focuses on high-performance optical modules and devices, serving various ICT industries, including telecommunications and data centers. Eoptolink has a wide product range and has been recognized for its rapid growth and innovation in optical solutions .

-

Accelink Technology: Known for its optical communication products, Accelink provides a variety of optical modules and has a significant presence in the telecommunications market .
