

How is the cable tray warranty handled

Article Overview

Cable tray warranties generally range from 5 to 20 years, depending on material, environment, and maintenance.

General Warranty Periods

The warranty period for cable trays varies by manufacturer and usage conditions, typically ranging from 5 to 20 years. The exact duration depends on the material of the tray, the environment in which it is installed, and adherence to maintenance requirements .

Material-Specific Warranties

- Galvanized steel trays: Usually 5-10 years, depending on the thickness and quality of the galvanized coating .
- Stainless steel trays: Offer 10-20 years due to excellent corrosion resistance .
- Aluminum alloy trays: Typically 10-15 years, influenced by alloy quality and environmental exposure .
- Fiberglass reinforced plastic (FRP) trays: Generally 10-20 years, suitable for highly corrosive environments .
- PVC trays: Usually 5-10 years, best for non-corrosive, low-load indoor environments .

Environmental Factors

- Indoor environments: Stable conditions can extend the warranty period.
