

How much does Om3 pigtail fiber cost

Article Overview

OM3 fiber optic pigtails typically range from \$2 to \$10 per unit depending on length, connector type, and vendor.

Price Overview

- 1-meter LC/UPC OM3 pigtail: Around \$2–\$3 per piece for standard single-mode or multimode configurations with a 900µm tight-buffered cable and factory-installed connector (Fiber24) .
- 3-meter LC/UPC OM3 pigtail: Approximately \$5–\$7 per piece, suitable for fusion splicing and data center applications (mefiberoptic) .
- SC/UPC OM3 pigtail: Prices are competitive and generally fall in the \$3–\$6 range for standard lengths, with customization options for jacket material, polish, and cable diameter (Optcore) .

Factors Affecting Cost

- Connector Type: LC connectors are smaller and often slightly more expensive than SC connectors due to higher density applications.
- Length: Longer pigtails (e.g., 3 meters) cost more than shorter ones (1 meter) due to additional fiber and materials.
- Customization: Options like flame-retardant jackets, bend-insensitive fibers, or specific polish types can increase the price (Fiber4u) .
- Quantity: Bulk orders often reduce the per-unit cost, especially for data center deployments.

Practical Considerations
