

How much does a fiber optic cable suspension clamp cost in the UAE

Article Overview

Fiber optic suspension clamps in the UAE typically range from AED 15 to AED 150 per unit, depending on type, material, and order quantity.

Price Overview

The cost of fiber optic suspension clamps varies widely based on several factors:

- **Type of Clamp:**
 - Tension clamps and ADSS suspension clamps for aerial installations are generally more expensive due to their heavy-duty design and ability to handle long spans and mechanical stress .
 - Drop cable clamps for FTTH applications are smaller, simpler, and usually less expensive .
- **Material:**
 - Stainless steel clamps are corrosion-resistant and durable, suitable for outdoor and harsh environments, and cost more .
 - Nylon or composite clamps are lighter and cheaper but may be less durable in extreme conditions .
- **Quantity and Supplier:**
 - Bulk orders often reduce the per-unit cost. Suppliers in the UAE, such as distributors or local branches of international manufacturers, typically provide quotes based on order volume .
