

How much does a fiber optic flange connector cost

Article Overview

Fiber optic flange connectors typically range from \$1 to \$15 per unit depending on type, polish, and quantity, with wholesale options offering lower per-unit costs.

Price Ranges by Connector Type

- SC, LC, ST, FC connectors: Standard single-mode or multimode connectors generally cost \$1–\$5 each for small quantities, with bulk orders reducing the price to \$0.50–\$2 per unit .
- MPO/MTP connectors: Multi-fiber connectors are more complex and typically range from \$5–\$15 per unit, depending on fiber count and polish type (UPC or APC) for low back-reflection applications .
- Flange-specific connectors: Fiber optic flange connectors, which include mounting plates or adapters, are priced similarly to standard connectors but may include additional costs for customization or OEM services. Wholesale suppliers often provide discounted pricing for bulk orders .

Factors Affecting Price

- Connector Type: Single-mode connectors are usually slightly more expensive than multimode due to precision requirements.
- Polish Type: APC (Angled Physical Contact) connectors cost more than UPC (Ultra Physical Contact) due to lower back-reflection performance.
- Quantity: Bulk purchases significantly reduce per-unit cost.
