

# How much does a mobile power distribution box cost on a construction site

## Article Overview

Mobile power distribution boxes for construction sites typically range from \$200 to over \$2,000 depending on capacity, features, and certifications.

### Typical Price Ranges

- Basic portable units for small-scale construction or indoor use can cost around \$200–\$500. These usually feature standard outlets, limited amperage, and basic weatherproofing suitable for mild environments (IP44 or similar) .
- Mid-range units with higher amperage, multiple circuits, and enhanced weatherproofing (IP65 or higher) generally range from \$500–\$1,200. These are suitable for outdoor construction sites and can handle heavy-duty tools and machinery .
- High-end or specialized units, including explosion-proof or fully customizable boxes with advanced safety features, IoT monitoring, or remote control capabilities, can exceed \$2,000 per unit. These are designed for large-scale construction, industrial, or hazardous environments .

### Factors Affecting Price

- Capacity and Voltage: Higher amperage and three-phase power distribution increase cost.
