

How to buy network security equipment

Article Overview

You can purchase network security equipment through online retailers, authorized distributors, or local installation providers, depending on your needs and scale.

Identify Your Needs

Before purchasing, determine the type of network security equipment required:

- Firewalls: Hardware or software-based, such as Cisco Secure Firewall, Fortinet, or Palo Alto devices .
- Switches and Routers: Managed or unmanaged, with PoE capabilities for network devices .
- Security Appliances: Intrusion prevention systems, VPN gateways, or DDoS protection solutions .
- Management Software: Centralized platforms for monitoring and policy enforcement, like Cisco Secure Firewall Management Center or Security Cloud Control .

Online Retailers

For smaller-scale or off-the-shelf solutions, online retailers offer a wide selection:

- Newegg provides hardware firewalls, NGFWs, and network security devices from multiple brands, with detailed specifications and user reviews .
- Check for compatibility, memory, storage, and management features when selecting devices.

Authorized Distributors
