

How to connect a quick-connect patch cord fiber optic cable

Article Overview

Connecting a quick-connect fiber optic cable involves careful preparation, cleaning, and proper insertion into the connector to ensure optimal signal performance.

Tools and Materials Needed

- Fiber optic quick connector or fast connector (LC, SC, or ST type)
- Fiber optic patch cord
- Fiber stripper and cleaver
- Dust-free cleaning cloth or wipes
- Crimping tool or connector housing (if required)
- Safety gloves and glasses

Step-by-Step Connection Process

- Prepare the Cable: Remove the protective end cover from the quick connector and pass the fiber optic cable through the connector housing .
- Strip the Fiber: Use a fiber optic stripper to remove the outer sheath of the cable, typically 4-5 cm in length, exposing the coated fiber .
- Trim the Coating: Cut the exposed coating close to the clamp edge using precision pliers to reveal the bare fiber .
