

Huawei 96-port core switch

Overview

Huawei OceanStor SNS3096 FC Switch is a Fibre Channel (FC) switch in data center network infrastructure with a maximum of 96 ports in increments of 24; the number of general-purpose ports can be increased to 48, 72, or 96 using PoD licenses. CloudEngine S12700H series switches are Huawei's next-generation modular core/aggregation switches designed for high-end campus networks in the all-wireless era of Wi-Fi 6/7. The S9700 uses an advanced multilayer switching architecture to support sustained bandwidth upgrading and to provide 40GE. Use Gen 6 Fibre Channel, Fabric Vision technology deliver unmatched 32 Gbps performance, increased scalability, and operational stability to ensure hyper-scale virtualization, larger cloud infrastructures, and growing flash-based storage environments.
