

Huijue US Mobile Fiber Optic Distribution Frame

Overview

Equipped with LC/UPC adapters, the ODF supports up to 96 fiber cores, delivering low insertion loss and consistent performance for short- and medium-distance optical links commonly used in access and transmission networks. The Line Side ODF is a key device used in fiber optic communication systems for cable termination and distribution, enabling fiber line connection, distribution, and scheduling. As the degree of network integration becomes higher. Company Introduction: Established in 2001, Shanghai Huijue Network Communication Equipment Co., Ltd (HJ Network for short) is the leading manufacturer and solution provider for telecom and communication products.
