

India-branded optical modulator SFP

Article Overview

India now produces high-quality SFP optical transceivers through manufacturers like Syrotech Networks, Synergy Telecom, and CloudPhotonix, offering reliable, mission-critical modules for networking applications.

Overview of Indian SFP Manufacturers

Syrotech Networks (GOIP Global Services Pvt Ltd.) is a leading Indian manufacturer of optical transceivers, including SFP, SFP+, QSFP, and QSFP28 modules. They integrate high-quality components sourced globally and emphasize rigorous quality assurance, covering R&D, design, testing, and simulation to ensure compatibility and performance. Their modules support various data rates and protocols, including advanced technologies like 25G CWDM/DWDM and 400G solutions. Synergy Telecom in New Delhi manufactures SFP modules ranging from 1G to 10G, including single-mode and multi-mode options. They provide modules with duplex LC connectors, supporting distances up to 80 km, and offer warranty and replacement services, making them suitable for enterprise, ISP, and telecom applications. CloudPhotonix specializes in high-performance optical transceivers for data centers, AI compute, and telecom networks. Their SFP modules are designed for minimal signal loss over long distances and are tailored for secure, high-speed data transmission.

Key Features of Indian SFP Modules

- Form Factor: Small Form-Factor Pluggable (SFP) modules, hot-pluggable for easy integration into switches, routers, and servers.
- Data Rates: Modules support 1.25G, 1G, 10G, and higher speeds depending on the model.
