

Iraq warrants 1G network security equipment

Article Overview

Iraq sources network security equipment through local distributors, IT solutions providers, and government tenders, with procurement managed via platforms like GlobalTenders.

Suppliers and Distributors

Several companies in Iraq provide network infrastructure and security solutions suitable for 1G networks:

- Smart Tech Iraq is a value-added distributor specializing in network infrastructure and fiber-optic communications. They supply industrial-grade networking and security equipment, working with system integrators, telecom installers, and public/private sector clients across Iraq .
- Iridium Solutions offers end-to-end IT solutions, including network design, deployment, and security systems. They provide professional-grade equipment, managed services, and support for organizations in sectors such as banking, oil and gas, and education .
- AL-NABAA is a trusted electronics retailer in Iraq offering networking and security equipment with full warranties and nationwide delivery .

Government Procurement and Tenders

Iraq's government procurement for network and security equipment is typically conducted through official tenders:
