

Is it okay to hang a light on the distribution box

Overview

The National Fire Protection Association (NFPA) recommends that you not place anything on or near your electrical panel as it can cause an arc flash or an electrical shock hazard. Is it okay to cover your circuit breaker box?

ChickFix USA It is not recommended to hang anything above the breaker box due to safety concerns. It is important to maintain an open space around the breaker box to help with air circulation and to ensure the circuit breakers have enough room to. When hanging a picture, it's important to ensure you are not putting any weight on the breaker box. 5 feet (≈ 2 meter) high in front of the panel. The panelboard's door (hinged cover) shall be able to be opened to a full 90° . The National Electric Code mandates a specific clear working space. Below are photos of the light from the front and the back, and then a photo of the light on the board. I don't have an electrical box yet.
