

Junction Box for 24-core Optical Cable

Overview

This small horizontal fiber splice closure is a compact and durable enclosure designed to protect and manage fiber optic splices in small-scale outdoor deployments, supporting max 24 core splices. GJS-24-D (PLC) 24 Cores SC fiber optic joint closure is a kind of small junction box that is used to join the fiber bundles and protect them during cabling installation, preventing the cables from abrasion and other damage. It has many advantages: excellent waterproof performance, lightweight, small. There are several types of a 24 core cable junction box. These factors include the environment where the product will be used and the specific purpose. Made from imported PPR reinforced plastics, the box offers high strength, corrosion. Look no further than Alibaba.
