

KVM Switcher Price

Article Overview

KVM switchers typically range from around €60 to over €500, depending on features, number of ports, and video support.

Price Overview

- Basic desktop KVM switches for 2–4 computers with standard VGA or HDMI support usually start at €60–€100 and are suitable for home or small office setups .
- Mid-range models with multiple ports (4–8), USB sharing, dual-monitor support, or higher video resolutions (1080p or 4K) generally cost €150–€300 .
- Professional or IP-based KVM switches designed for server rooms, remote access, or rack-mounted setups can exceed €500, especially when supporting multiple monitors, 4K/8K resolutions, or advanced USB3.2 connectivity .

Factors Affecting Price

- Number of Ports: More ports allow control of additional computers, increasing cost.
- Video Resolution: Support for 4K or dual-monitor setups is more expensive than standard VGA or HDMI.
- Connectivity Type: USB-C, USB3.2, or IP-based remote access adds to the price.
- Form Factor: Rack-mounted switches for professional environments are pricier than desktop models.
- Additional Features: On-screen display (OSD), hotkey switching, and audio support can increase cost.
