

Large-span cable tray solutions

Overview

Large span cable trays are designed to support heavy cable loads across long distances without intermediate supports. Engineering an optimization strategy for a long-span cable tray installation requires strict precision, premium hardware configurations, and a comprehensive focus on load dynamics. They are not only suitable for the overhead laying of indoor and outdoor cables in industrial and mining enterprises such as petrochemical. Strong and durable large span cable trays designed for heavy-duty industrial and commercial electrical systems. And even large distances can be spanned effortlessly with the. Is your cable tray system optimized for safety, dependability, space and cost savings?

Cable tray (or cable ladder) systems are a popular alternative to electrical conduit systems, as they have an outstanding record for dependable service, design flexibility and cost savings in commercial and.
