

Lighting distribution boxes come in several forms

Overview

Lighting Distribution Boxes – Manage lighting circuits with dedicated protection. We also highlight how reliable manufacturers like NUOMAK support stable, compliant, and cost-effective power distribution. The power distribution boxes deliver electricity from the main electrical main to other circuits. Understanding the different types available and their specific applications will help you avoid costly mistakes, and ensure long-term performance. The building's electrical power enters through the main feeding cable, which connects to the distribution board. Each type handles different amounts of electricity. They are made from metal or plastic.
