

Malta Gytza 33 Fiber Optic Cable

Overview

GYTZA Armored Fiber Optic Cable with LSZH jacket, aluminum tape armor, 2-288 cores, UV and moisture resistant—ideal for safe, durable outdoor network installations. GYTZA optical cable involves enclosing single-mode or multi-mode optical fibers in loose tubes made of high modulus polybutylene. The GYTZA fiber optic cable is a high-performance outdoor cable designed for demanding applications. It features a loose tube construction, central strength member, and LSZH outer sheath for superior performance and long-term durability. High-performance flame-retardant LSZH outer sheath ensures. We supply a range of both indoor and outdoor fibre optic cables that have different construction types, such as tight buffer, loose tube and microcable, to suit different application types be it for direct burial, duct installation, aerial (figure-8 and self-supporting) or blown fibre applications. The core is armored with laminated aluminum tape. Primary data for modern submarine cables is sourced from TeleGeography. Free Delivery to Malta & Gozo.
