

Malta cable tray price and national standard thickness

Article Overview

Cable tray prices in Malta vary by material and type, with galvanised steel trays being common, and standard thicknesses typically range from 1.2 mm to 2.5 mm depending on load and span requirements.

Types of Cable Trays in Malta

In Malta, cable trays are available in several forms:

- Galvanised Steel Cable Trays: Durable and suitable for industrial and commercial installations, often supplied by companies like Brownrig Supplies Direct .
- Mesh or Wire Cable Trays: Lightweight, flexible, and ideal for data and low-voltage cabling .
- Plastic or PVC Trunking: Used for light-duty applications, offices, and residential settings, available from suppliers like BigMat Malta .

Typical Thickness Standards

While Malta does not have a unique national standard publicly listed online, cable tray thickness generally follows European norms (EN 61537) for metallic cable trays:

- Light-duty trays: 1.2-1.5 mm
- Medium-duty trays: 1.5-2.0 mm
